AWFUL PSORIASIS 35 YEARS

Terrible Scaly Humor in Patches All Over the Body—Skin Cracked and Bleeding—Itching Unbearable—Cured by Cuticura in Thirty Days at Cost of \$4.75.

ANOTHER WONDERFUL CURE BY CUTICURA

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Soap, six boxes Cuticura Ointment, and two bottles of Cuticura Resolvent. I bathed with the Soap, applied the Ointment once a day, and took the Resolvent as directed. In thirty days I was completely cured, and I think permanently, as it was about five years ago.

"The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twenty-four hours. It was worse on my arms and limbs, although it was in spots all over my body, also on my scalp. If I let the scales remain too long without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable.

"To sum it all up, I would not go through such another ordeal of affliction for thirty-five years for the State of Kansas. (Signed) W. M. Chidester, Hutchinson, Kan., April 20, 1905."

Cuticura Soap, Ointment, and Resolvent are sold throughout the country by Druggists, Grocers, and Dealers in Household Goods. Beware of cheap imitations. Write for free literature to J. C. Allen, Inc., 100 N. Main St., Boston, Mass.

DEVILIN CREDITORS MEET

Hear Partial Report From Board of Receivers.

KANSAS CITY, July 31.—A meeting of the creditors of Charles J. Devlin, the former millionaire coal operator, was held here today. There was no action, as the creditors could take except to hear a report in part from the receivers and to discuss the possible methods of realizing rapidly on the property.

About the time the receivers were appointed, a call for the meeting was issued by some of the men who were anxious to save the property from being scattered. All three of the receivers were present at this meeting. The three receivers have their appointments in such shape that the Kansas receivers are recognized in Illinois and the Illinois receivers in Kansas, and while appointed separately, they really form one board of receivers.

Most of those attending the meeting are lawyers, attorneys for banks, trust companies, brokers or others from whom Mr. Devlin borrowed money.

HAVANA STATION CROWDED

Many Passengers Detained on Account of Fever.

HAVANA, July 31.—Seventy-eight arrivals today from Mexican and Southern States ports again increased the number of passengers detained at the Triunfo station and the authorities are considering the advisability of taking some of them to the Mariel station, where there is abundant room.

Of nineteen passengers on the Excelsior from New Orleans fourteen were sent to the Triunfo station, as well as were all the twenty-eight passengers on the Marquette from Miami, Fla.

The Yucatan, bound from Vera Cruz to New York, brought one feverish passenger, who was isolated and taken to the Las Animas fever hospital.

DR. CLARKE IS COMMITTED

Must Stand Trial for Taking Snapshots of Forts.

KINGSTON, Jamaica, July 31.—The investigation before a magistrate today of the case against Dr. Franklin Clarke of Boston, who is charged with wrongfully obtaining a photograph of the fortifications at Fort Royal, resulted in Dr. Clarke being committed to trial before the Circuit court, which will be held the end of next month.

A British non-commissioned officer, who assisted him in gaining entrance to the fortress, will be court-martialed.

Dr. Clarke, who is an American and a graduate of a medical school, was arrested at Kingston on July 17 last. He was caught taking photographs of the fortifications at Fort Royal, and was taken to the detention hospital. The Proteus then proceeded to her dock with the remaining passengers and all members of the crew.

Great care was exercised when the Proteus sailed from New Orleans. Four cabin passengers were rejected because they came from the Italian quarters of the city and no storage passengers were allowed on the ship. The crew did not go ashore at all in New Orleans.

MUCH WORK IN NAVY YARD

Extensive Repairs to Be Made on Government Vessels.

VALLEJO, Cal., July 31.—It is reported at the navy yard that Secretary Bonaparte is favorable to the immediate completion of the training ship Intrepid and also the commencement of work on the new Government collier. A new propeller will be placed in the Wyoming and other necessary repairs made to that vessel. New boilers are to be placed in the Bennington, which also will be repaired, and there is work to be done on the Buffalo. All this will necessitate a considerable increase in the number of navy yard employees in the near future.

BIG TANNERY DEAL

Leather Trust to Secure Control of the World's Largest Plant.

KENOSHA, Wis., July 31.—Articles of incorporation were filed at Madison today for the N. R. Allen Sons Tannery company of Kenosha. The capital stock is \$300,000 and the incorporators are Charles W. Allen, N. R. Allen, Jr., and Edward C. Allen.

It is generally believed that this is the first step in turning over the big Kenosha tannery, the largest in the world, to the leather interest, and that the deal really means a reorganization of the American Hide and Leather company, which would exercise control of all the larger independent plants in the country.

ALLIANCE TO BE CLOSER

Progress Being Made With Anglo-Japanese Treaty.

LONDON, July 31.—Considerable progress is being made with the new Anglo-Japanese treaty alliance. Some details have not yet been fully settled, but it can be definitely stated that the terms will be decidedly more comprehensive than those governing the present alliance. The Associated Press learns that the British Government's presumption is that its advice will be asked by Japan in the course of the peace negotiations, and that it will then gladly offer what counsel may seem to be best calculated to assure a permanent peace.

Cotton Operatives Will Strike.

LONDON, July 31.—The Lancashire cotton operatives have decided by an enormous majority to strike on August 13 unless the advance in wages demanded by them is conceded. During the past week a ballot on the question of striking has been taken among the 60,000 operatives. The demand is for 5 per cent advance in wages.

A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule, it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels, give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indication of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by all leading druggists.
